I'll be traveling Monday afternoon, coming back Thursday late. Let's try for Friday morning if that works for you. 10:00 your time OK?

Thanks.

Hi Bob (and Sherry) –

I'll be in Colorado M-W. The only window that is open is Monday afternoon (any time after 1pm MT). I'm back and available Thursday and Friday.

Tom

FYI.

Tom, maybe we can talk about this next week. I will be traveling most of the week but will have time first thing in the morning to discuss if you are available.

We have a call today with LDF and WDNR about well locations, but since this information from Chris was delivered late yesterday, we may need time to digest before getting into the details. Overall it looks like PECFA funding is not likely to be justified for many well locations that we suggested.

Subject: Proposed Monitoring Well Review Comments for the Tower Standard Site

Good Afternoon:

Attached please find DNR's comments on the monitoring well proposal shared by EPA on April 26, 2017. My apologies for not getting these to you sooner, but I have been involved in a regional program meeting for much of the week. This meeting did allow me to get input on the proposal from several DNR RR Program managers, and the attached comments reflect what our program believes to be justifiable from a PECFA funding standpoint.

My hope is that we can continue to discuss the monitoring well installations during our call at 8 AM tomorrow. The call-in number is 1-888-327-8914, and the pass code is 6751 034#.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
